# AllianceCFM

# Commercial and Domestic Plumbing and Heating

We offer a wide range of services, from central heating systems to gas services and plumbing requirements.

We have the expertise to handle any job, no matter how big or small.

From boiler repairs to full central heating installations, we can do it all!

Alliance CFM are fully qualified, registered and insured engineers with years of experience in the industry.

We offer competitive rates and excellent customer service - so you can be sure that your job will be done right first time!

## Further Information

If you would like to discuss our heating plans with an engineer please call the office.

You will only be offered a service plan if we have serviced your boiler in the last 3 months

If your boiler has not been serviced recently, please book in a service first and once completed we can offer you a plan

If you'd like to start a plan, please contact our office and they will set the plan up to start on an agreed date.

We will ask you to set up a monthly Direct Debit from your plan start date

## Safety Advice

From time to time, we may tell you that your boiler needs permanent repairs or improvements that aren't covered by your agreement to keep working safely. If you don't follow this advice, it will affect certain parts of your cover

Please call or email the office to cancel your plan. We will require 30 days notice.
